#### This Is Tale Of Costly Lunch With Taxman

PITTSBURGH (P)-Nicholas J. Nigro, ex-manager of a nearby hotel, came into U. S. District Court Tuesday to plead guilty to evading payment of \$3,026 in cabaret taxes.

Nigro told Judge Joseph P. Willson he didn't understand the tax because of its complexity. And, said Nigro, two Internal Revenue agents came to his place and discussed his tax sit-

The agents, said Nigro, seemed very well pleased. So, Nigro said, he invited them to have lunch with him. As they lunched, Nigro said he explained his bookkeeping system. He did so much explaining, he declared, the agents had another look at his books-and then arrested him. Judge Willson sentenced Nigro

to six months in jail and fined him \$5,000, stipulating that Nigro will be jailed another six mor ins if he does not pay the fine.

"It was a very expensive luneh," said Judge Willson.

#### Do You, As a Motorist, Realize This?

Any careful observer, as he watches traffic on our highways is certain to realize that too few of us motorists appreciate how fast we are driving most of the

We all know that a car can't stop on a dime, but do we actually know how far our car travels before it can be stopped.

Some analysts have gone to the trouble of figuring this out and it will give a lot of drivers a jolt when they know the truth, because we go farther than we realize.

Tests show it takes the average driver, under most conditions, about three-fourths of a second to react to an emergency and hit his brakes.

At 15 m.p.h., in the time it takes to react, you've already traveled at least 17 feet- theoretically, over three six - feettall men. It takes another 14 feet - about two more six - footers - to bring your car to a halt. That's a total of five six - footers you've run over - and at only 15 m.p.h.!

Most motorists, though, don't drive quite that slow. Let's assume you usually whiz along at, say, 60 m.p.h. A pretty reasonable speed, you'd say.

Keep your eyes on the road and reach for a cigarette lighter. Put the cigarette in

your mouth, glance down and flick the lighter. That flick and initial puff on the cigarette took about two seconds. During that time, you traveled at least 176 feetmore than half the distance of a football

If you saw an accident situation ahead after looking up and hit the brakes immediately, before you could stop your car would have traveled 366 feet further equal to another football field, and then

Your trouble may not be lighting cigarettes. But everyone is distracted sometime or other by something in the car. Best protection is to be alert, and to hold down your speed so if you do face a situation, you'll have time to stop safely.

If you do find yourself facing an emergency, you'll be better able to stop in time if your tires and brakes are in good condition. An emergency is no time for added

If, despite all your precautions, you find yourself in an emergency, remember this tip: Better that you head for the ditch than ram an oncoming car. "Stay alert, think ahead and stay alive," is good ad-

#### Scalp Roof Is Air-Conditioned

NEW YORK (A)-Keep this under your hat, fellows, but if you're going bald, Louis Feder may have just the thing for you.

It's "the air-conditioned hairpiece," which weighs less than an ounce and is guaranteed to be hurricane proof. "It's so light it breathes . . .

absolutely no feeling on the head," said Ben Kaplan, executive vice president of the House of Louis Feder. "And please don't refer to it as a wig or toupee. It is a hairpiece."

Feder, a pioneer human scalp roofer since he emigrated from Austria half a century ago, startled the industry with a new crew cut model hairpiece several years ago. Sales zoomed 700 per cent as baldies rushed to get an ivy league look.

The new air-conditioned special, Feder feels, may be his ultimate masterpiece. It is held firmly to the scalp by two small

pitches of tape, one fore, one aft. "The wind can't get up under it and blow it off," explained Kaplan, a former Air Force major. He added:

## I stopped waiting...bought a new Plymouth...and man, what I saved!

Sometimes it's smart to wait...and sometimes it isn't! Take me. I was putting off buying that new car we needed. Then I dropped in at my Plymouth dealer's, just to look things over. It was the most profitable visit of my life.

I found I could get a price on a Plymouth a whole lot lower than I believed possible. PLUS a trade-in offer on my old car so high that I made 'em say it twice! I saved a clean \$140 on the Plymouth ride alone. That's

famous Torsion-Aire Ride. It's standard on all Plymouths

... but you have to pay up to \$140 extra for the top

ride of the other two leading cars in the low-price field.

And Plymouth proved it can save me gas money by winning the 1958 Mobilgas Economy Run. (There's a brandnew Fuel-Saver Choke that makes your gas buck go a whole lot further!) 'It proved it will save me still more money at trade-in time, with Silver Dart Styling that will look new and bring more years from now!

Any way you look at it, here's a beauty that's a moneysaver, too. I'm a proud guy right now ... and a whole lot of money ahead! See your Plymouth dealer.

By applying a little spray to the pigs in the regular litter and to those from another litter which are added to the first litter, the old sow is completely fooled and without hesitation, accepts the strange pigs as part of her family because they all smell alike

#### Lowly Dodgers Hand Redlegs Double Loss

CINCINNATI A - Manager Birdie Tebbetts was happy last Monday when he said his Cincinnati Redleg pitching staff could match nearly any National League

But he had no way of knowing that all his pitchers and hitters couldn't out-hurl, outslug or outlast the Los Angeles Dodgers the way it happened Tuesday night.

Los Angeles went all out in a 10inning scoring rampage to beat the Reds, 13-10, in the opener of the twi-night doubleheader. Some erafty pitching and a five-run outburst made the difference in the 7-2 Dodger victory in the 11-inning

It knocked the Reds out of the league's No. 3 spot.

The Reds got some hitting, but not enough. They spent both games trying to catch up. The Dodgers had a two-run lead

in the nightcap before the Reds could connect with anything useful off starter Bob Giallombardo. Duke Snider blasted a homer in the fourth and so did Gil Hodges in the fifth. When the Reds got moving in

the sixth, it was started by a homer from Walt Dropo, the big former American Leaguer acquired on waivers earlier in the day. The Reds finally pulled even,

2. in the seventh when George Crowe's safety brought in a run. But the Dodgers jumped on starter Bob Purkey in the 11th with a five-run, five-hit outburst that sank the Reds.

In her charge to the new officers, Mrs. Cowan said "we all need to consider our mental, spiritual and physical attitudes" and then outlined this "code for living: "I will try to live through this day only; I will be happy; I will try to strengthen my mind; I will try to adjust to what is and not to other people to suit my own ambitions: I will try to do a good turn; if my feelings are hurt, I will try not to show it; I will criticize no one; I will share love and kindness with others.'

Mrs. Cowan commended the retiring officers and presented Miss Marie Marchant, the retiring president, a rose, "a tribute to her untiring efforts during the year."

Mrs. Cowan appealed the com- Greenfield surgical. mittee chairman to "hear the voice of each member. . . because 100 per cent participation is needed to keep any organization going."
